ہمارا کام تب ختم ہوگا جب ہر بچے کے ہاتھ میں قلم ہوگا۔
عمران خان

Abdullah Saffdar: Born Entrepreneur

Abdullah Saffdar is a student of BBA (Class of 2021) at Namal Institute. At the age of just 12, he started his first business by setting up a road-side stall for selling snacks in his village; Kalri, Mianwali. Abdullah's father decided to expand the store. He set up a room in his own house to accommodate the family business. Later Abdullah assisted his mother in setting up a garment shop alongside the store. Being a restless entrepreneur and social activist, he did not stop. He collaborated with his friends to set up a tuition center and gathered sponsors to finance the construction of a cricket pitch. The Namal Family is proud of Abdullah and all his accomplishments.

Journey to Namal Knowledge City

Ms. Janne Teller, who is a renowned Danish novelist and writer, first visited Namal in March 2018. Her third visit this year coincided with new developments which helped her see how this knowledge city of the future will take shape. Ms. Teller has won international acclaim for her published works, and was recently awarded Tamgha-e-Imtiaz for raising awareness about human rights violations in Indian Illegally Occupied Jammu and Kashmir (IIOJK).

Embracing the Vision

“

I am not sure how to express my pleasant surprise and amazement about my visit to Namal in February of this year. I was part of a medical and education delegation. Impressively, the Namal team spent significant time giving us a tour of the land and of the existing campus. What really amazed me was the dedication to the project shown by the faculty and staff. I anticipate being involved at multiple levels as needed, Insha'Allah!!

My Best, Sana

Mr. Sajjad Burki, Mr. Shafiq Akbar, Mr. Imran Khan, & Mr. Zafar Ali

Namal Knowledge City Master Plan - Phase 1 encompasses 2.5 million square feet of construction. Once finished it will house 4,500 students and more than 200 faculty members. In addition to various hostel buildings, Phase 1 will include a Village Piazza which will become a social hub for both students and faculty members. Three academic blocks including an iconic building will also be constructed. The Phase I is expected to be completed by the year 2023.

BS Mathematics; For Navigating Through Our Data-Intensive World

By Dr. Asmatullah Khan, Rector, Namal Institute

Mathematics forms the crux of what we do at Namal. From computer science to precision agriculture; all rely on Mathematical models to contrive solutions to the most pressing issues facing Pakistan. Last year, Namal proudly initiated the BS Mathematics Program which is now making substantial gains in the area of Artificial Intelligence & Big Data, and agricultural research. In our data-intensive world, Mathematics continues to mold all facets of our lives and we hope that Namal will be one of the founding institutes in the country to use quantitative research to create impact especially in rural areas.

Executive Trainings at Namal Executive Development Centre (NEDC)

Namal Executive Development Centre launched its executive trainings in March, 2021. Two training programs were organized i.e. 'Human Factor Engineering' for the engineers and scientists of Pakistan Atomic Energy Commission, and 'Finance for Non-Finance Managers' for the top-level management of Pakistan Atomic Energy Commission.

“

Namal is hope and it has always been my dream to strengthen its cause. I became part of Namal in 2008 when I heard about Mr. Imran Khan's grand vision of education. He inspired me to become part of this vision and since then I have seen Namal grow. Nothing is more fulfilling and gratifying than witnessing the impact of your giving. Indeed, I have seen many youngsters blossom into professionals, Mashallah! I pray that Allah allows me to sustain my efforts to strengthen families and communities throughout Pakistan.

Ms. Yasmeen Faruqi

The Most Long-time Friend of Namal

“

I got to know about Namal through my father who has always been a supporter of Mr. Imran Khan and his vision. I was lucky enough to attend a fundraiser of Namal along with my father where Mr. Imran Khan spoke. Having heard his views, my interest in supporting Namal developed and I became one of the youngest Members of Namal Knowledge City by contributing through my pocket money. I also volunteer my time in different events of Namal. I am so excited to shape the future of Pakistan as a Future Graduate of Namal.
